EXPERIENCE - DETAIL

● Epicor Software Corp.
2009 - 2017

Senior UX Designer

Web

Led the UX & UI Design effort for Epicor's award winning SaaS offering, FFL Compliance Manager and its associated e-commerce site, SubscribeNow.

Created clickable wireframes in support of FFL Compliance Manager that detail the interaction and flow for user onboarding, customer and supplier maintenance apps.

Managed a third party agency in the design of Ace Hardware's B2B website, The Supply Place. Shepherd the product through weekly stakeholder meetings consisting of Ace executives and assisted the design team with clickable wireframes, visual mockups and interaction design.

Designed the initial HTML5 & CSS3 prototype for the Epicor Retail Portal. The portal takes a forward thinking and device agnostic approach, utilizing responsive web techniques (RWD) allowing end users to interact with the software on desktop, tablet or smartphones.

Mobile

Conceptualized, wireframed and mocked up the interaction design for four native iOS and Android apps as well as an iPad Point of Sale app. Created and maintained all graphical assets for early skeuomorphic designs as well as the updated flat UI designs.

Desktop

Redesigned Epicor's flagship product, Eagle N Series, a comprehensive suite of retail management software for small to mid-sized businesses (Ace, True Value etc.) located at over 10,000 stores within the US and abroad.

Collaborated with Product Development and Product Management, to create mockups, visual designs and specifications to facilitate the presentation and transition of over 5,000 screens written in VB6 moving to .Net.

Multi-Media

Managed the design efforts of a third party agency in the creation of a 55 inch LED touchscreen that highlights Epicor Software products and services to trade show attendees and prospective customers. The UI was designed responsively (RWD) so that the presentation was also viewable via tablet.

Usability

Lead software and hardware usability studies and heuristic evaluations for mobile and touchscreen products.
